

Beshoy Azer

Frontend Developer | CS

Cairo, Egypt • beshoazer446@gmail.com • <https://www.linkedin.com/in/besho-azer-front-end> • <https://github.com/beshoazer446-source>

ABOUT ME

Second-year CS, with a strong passion for frontend web development. Self-taught in HTML, CSS, and JavaScript through hands-on project building. Eager to contribute to a real team environment and grow through practical experience.

TECHNICAL SKILLS

- HTML5 — Semantic markup, accessibility, responsive structure
- CSS3 — Flexbox, Grid, animations, responsive design
- JavaScript — DOM manipulation, events, fetch API
- Git & GitHub — Version control, project hosting
- Currently learning: React.js

PROJECTS

Personal Portfolio | *HTML • CSS • JavaScript*

Personal portfolio website showcasing projects and skills with smooth animations and responsive layout. [GitHub →](#)

Tasali Alrabea — E-Commerce & POS System | *Next.js • TypeScript • Supabase*

Production e-commerce site for a Hurghada snacks & nuts shop, with 140+ products, weight-based pricing, bilingual Arabic/English support, and an admin dashboard, plus a companion Electron desktop POS app with barcode scanning and multi-currency support. [GitHub →](#) • [Live Demo →](#)

Sakna (سكنى) — Rental Housing Platform | *HTML • CSS • JavaScript*

Arabic RTL rental housing platform that helps renters find accommodation quickly, saving time and eliminating the need for brokers. Built with CSS Grid, responsive design, and native JavaScript. [Live Demo →](#)
